Athletics

Two of our student-athletes performed exceptionally well over the weekend at the BAAA Open National Track & Field event. Julianna Duncanson won the women’s discuss and came third in shot putt. She will represent The Bahamas in the under 20 category at the Jr Central American & Caribbean Games this summer.

Yanique Clarke came 3rd in the 400m in a time of 56.7 and will compete on the under 23 national team this July in Miami. She has also been named to the senior CAC national team that will compete in August. She was .8 seconds off the qualifying mark for the 200 in which she ran in 24.8 seconds.

Congratulations!

On Monday June 21, 2010 Phillippa Moss, clerk in the School of English Studies was awarded Toastmaster of The Year for The New Providence Branch of Toastmasters Club 3596. Her final speech entitled “Don’t Do It” also earned her the Competent Communicator Award.

Reminder

The Independence Holiday will be observed on Monday, July 12th.

New Northern Bahamas Campus

The second phase of the new Northern Bahamas Campus in East Grand Bahama is substantially completed with workmen from Reef Construction completing a final punch list of finishing touches this week. According to Project Manager Mike Dack, construction of the building is “substantially complete”. The new NBC is on schedule for a Fall 2010 opening.

The facility consists of a two level, 32,000-square-foot building featuring 18 classrooms, four faculty offices, library, computer and science labs, a bookstore, café, conference room, space for support services and an administrative area.

Installation of Lighting - B and T block parking lots

Workmen will begin the installation of lighting in the B and T blocks parking lots on Monday, June 28th, 2010. This phased project is anticipated to last approximately three weeks.

While the first phase of the work is conducted in the southern and northern zones of the B block, alternative parking will be at the T block where security will be present to direct you. The second phase of the lighting installation will take place in the eastern section of the T block parking. While this work is underway, faculty, staff and students are asked to utilize the remaining sections of the T and B blocks parking.
